

# Moon Sand

## You will need

- 8 cups of flour – self raising or plain
- 1 cup of oil (baby oil is best, but cooking oil works just as well)

1

Mix together until all the oil is incorporated into the flour. It will still look like flour, but it is now totally mouldable!

Can you make moon rocks? How about a crater?

What about putting it in a tray and feeling it on your feet?
