

# Sensory Tray

## You will need

- A sponge
- A hairbrush
- Cloths of different textures
- A wooden spoon
- Tin foil
- A feather (if you can find one)
- Anything else textured

1

Combine all of the items into a tray, or on the table. Let your child explore the textures of the different items.

Can they use language connected to touch – soft, hard, rough, tickly?

Which is their favourite? Which don't they like?
